

1 Introduction

Big Proof Trees

Iain Moncrief

[illegible]
$$\frac{\frac{\frac{\{\} : \text{length } D1 \Rightarrow 1}{\{\} : \text{length } D2 \Rightarrow 1}}{\{\} : 1 \times \text{length } D3 \Rightarrow 2}}{}$$
$$\frac{\frac{\{ \} : \text{length } [N, X] \Rightarrow 2}{\{ \} : \text{length } [4, X] \Rightarrow 2}}{\{ \} : 1 * \text{length } [4, X] \Rightarrow 2}$$
$$\begin{array}{l} \{1\} \vdash \text{length } [2,4,3] \approx 3 \\ \{1\} \vdash \text{length } [2,4,3] \approx 2 \\ \{1\} \vdash 1 + \text{length } [2,4,3] \approx 4 \end{array}$$

```

1 |> length(C(2,4,1)) == 4
2 |> length(C(2,4,1)) == 4
3 |> 1 + length(C(2,4,1)) == 5

```

```

      |
      v
    [ ] = length (2..3,4,5) => 5

```

$$\{ \} = 1 + \text{length } (2,3,4,5) \Rightarrow 5$$

```

[] : length (A,X) == 2
[] : length (B) == 1

```
